DISPLACEMENT TRACKING MATRIX

HAWIJA AND SHIRQAT CRISIS DISPLACEMENT OVERVIEW

05.10.2017

33,060 IDPs (cumulative number) displaced from Hawija and Shirqat after 21 September 2017, of these:

15,282 IDPs are still displaced

17,778 IDPs have returned

102,708 IDPs displaced from Hawija since August

On 21 September 2017, Iraqi forces resumed military operations against ISIS in the Hawija district of Kirkuk governorate and launched a related offensive in the Shirqat district of Salah al-Din.

The DTM Emergency Tracking has been monitoring displacement movements from the Hawija district since earlier military operations intensified in August 2016 (and then stalled in October 2016). To closely track the latest wave of displacement from this crisis, DTM has set up a flow monitoring system at screening sites in addition to the usual Emergency Tracking, which records the IDP population at the location of displacement.

Legend:

Governorate boundaries

District boundaries

Main districts of origin

Locations hosting IDPs since 20 September 2017

Locations hosting IDPs since 20 September 2017:

1 - 600 IDP families

601 - 1,600 IDP families

1,601 - 7,209 IDP families
